

Test Script for Wireframe

Greeting:

Thank you for participating in this test. The purpose of this test is to gather feedback on the wireframe prototype to enhance the user experience. We'll walk you through a scenario that simulates a real-world use case.

Onboarding:

You will be using the wireframe and completing tasks as a normal user would. Please let us know if you encounter any issues, and feel free to share your thoughts during the process.

Scenario:

Imagine you're an event organizer visiting a platform to create and manage events. Your goal is to create a new event, set its details, and publish it. As a participant, your task is to browse events and register for one.

Conclusion:

Thank you for completing the tasks. Your feedback is valuable and will help us improve the design. If you have any additional comments or suggestions, feel free to share them now.
