Test Insights and Next Steps

Main Insights:

1. Some participants found it unclear where to start when creating an event.

2. Navigation between screens was not always intuitive for first-time users.

3. Participants requested clearer confirmation messages after registering for events.

4. Some icons used in the wireframe were not universally understood.

5. Participants found the overall flow smooth once they understood the role selection process.

Next 5 Iterations:

1. Add clearer instructions for event organizers on how to start creating an event.

2. Improve navigation by adding breadcrumb navigation or a progress indicator.

3. Enhance confirmation messages to make registration success more visible.

4. Replace unclear icons with universally recognized ones or add labels.

5. Test the new changes with 5 more users and gather feedback on usability.
